

E85: The Campaign for an American Fuel

Useful Web Site Links

Fuel

Alternative Fuels Data Center (AFDC) E85 Fleet Toolkit

www.eere.energy.gov/afdc/e85toolkit/

The AFDC E85 toolkit, sponsored by the Department of Energy's EPA Act Program, provides information on how to develop E85 infrastructure including equipment and technology information, success stories, and important contact and resource information.

AFDC Ethanol Site

www.eere.energy.gov/afdc/altfuel/ethanol.html

The AFDC ethanol site answers basic questions about ethanol and E85 including details on manufacturing, the market, benefits, and research and development.

American Coalition for Ethanol

www.ethanol.org/

This is the official Web site of the American Coalition for Ethanol, a membership-based association dedicated to the use and production of ethanol.

Clean Cities Ethanol Blends Site

www.eere.energy.gov/cleancities/blends/ethanol.html

This Clean Cities site provides basic information about low-level ethanol blends such as E10. It includes descriptions of their benefits, performance, availability, cost, and additional resources.

National Ethanol Vehicle Coalition

www.e85fuel.com/index.php

This is the official site of the National Ethanol Vehicle Coalition, a non-profit membership organization that serves as an advocacy group promoting the use of E85 as a form of alternative transportation fuel.

Production and Distribution

Renewable Fuels Association

www.ethanolrfa.org

The Renewable Fuels Association is the national trade association for the U.S. ethanol industry. The site provides information on the production and distribution of ethanol, the ethanol industry, and the market for the fuel.

Incentives & Laws

AFDC State & Federal Incentives & Laws

www.eere.energy.gov/afdc/laws/incen_laws.html

This site provides access to a database that captures state and federal laws and incentives related to alternative fuels and vehicles, air quality, fuel efficiency, and other transportation-related topics.

Infrastructure

AFDC Alternative Fueling Station Locator

www.eere.energy.gov/afdc/infrastructure/locator.html

This site allows you to search for public and private alternative fueling stations in your area.

AFDC Alternative Fueling Station Route Mapper

www.eere.energy.gov/afdc/infrastructure/mapper.html

This AFDC site allows you to specify a route between a start and end point of your choice, and then provides a map that shows alternative fueling stations along the route.

Vehicle Manufacturers

Ford Motor Company

<http://www.ford.com/en/vehicles/specialtyVehicles/environmental/ethanol.htm>

This is Ford Motor Company's ethanol vehicle site. It provides information on E85 and each of the Ford FFVs.

Daimler Chrysler

www.fleet.chrysler.com

Information on Daimler Chrysler flexible fuel vehicles is offered here under its fleet division site.

General Motors

www.onlyGM.com

This site features GM's "LiveGreen, GoYellow" campaign with information on E85 and FFV offerings.

E85: The Campaign for an American Fuel

Coordinator site

www.eere.energy.gov/cleancities/toolbox/e85campaign.php

The Clean Cities coordinator site contains the contents of this folder in addition to downloadable graphics and links to background material. It's password protected:

User name: Clean

Password: City

Public site

www.eere.energy.gov/afdc/e85campagin

The public site contains background information and materials that E85 retailers and FFV dealers will find useful in creating sales campaigns.
